A MISCO INTERNATIONAL REPORT

CONTENTS

Page Nos

1.	Research Objectives	1
2.	Methodology	2
3.	Confidentiality	4
4.	Tables	5

1. RESEARCH OBJECTIVES

1.1. Legislation requires the Broadcasting Authority to undertake research in order to determine audience size and audience reactions with regard to broadcasting services in Malta.

1.2. The specific objectives of the research can be enumerated as follows :

- a. Television viewership and radio listenership of the various local stations.
- b. Preferred radio station and reasons for such preference.
- c. The reaction to the new TVM programme Schedule.
- d. Public opinion and attitudes towards programmes broadcast.
- e. The public's main source of news and preferred radio news service.
- f. The audience preference for various types of radio programmes.
- g. The stations associated with a number of popular programmes.
- h. Programme areas not covered at present, which the public may wish to see included.

1.3. It is relevant to point out in research of this nature that the results represent a 'snap-shot' of listenership and viewership of the particular week in which fieldwork was conducted.

2. METHODOLOGY

- 2.1. In an effort to provide action-oriented results in the most cost-effective manner, MISCO International conducted this research through a quota sample. A more detailed description of the methodology adopted appears in the 'Technical Report', presented separately.
- 2.2. Respondents were contacted at their homes or place of accommodation between the 12th and 18th January 1993 both days inclusive.
- 2.3. Interviews were conducted in twenty-five blocks in Malta and Gozo, covering 700 residents living in Malta and Gozo aged 14 years and over. The sample was representative of the Maltese population in terms of sex and age.
- 2.4. Interviews were conducted daily for seven days in order to capture information relative to the whole week.
- 2.5. All interviews were carried out by MISCO-trained interviewers under the supervision of a purposely-trained supervisor. They had all attended a briefing session prior to the start of fieldwork.
- 2.6. The whole project was under the control of a director of MISCO International, Mr. Lawrence Zammit, assisted by the research manager Mr. Anthony Carabott.

- 2.7. A back-check was made by the supervisor on 15% of each interviewer's work to ensure that the interviews took place according to the survey design and instructions.
- 2.8. All completed questionnaires were checked by the fieldwork supervisor prior to them being passed on for data processing.
- 2.9. Cross tabulations are provided by age, sex, socio-economic category, activity of respondents, and day to which the interview relates. Other cross-tabulations provided are by "regular radio stations listened to" and "TVM viewership".

3. CONFIDENTIALITY

- 3.1. MISCO International assures clients that the results of this research are confidential to them.
- 3.2. No part of this report may be published without prior consultation with MISCO International.

4.
